

Palomar Holdings, Inc. Announces Successful Completion of June 1 Reinsurance Renewal

May 30, 2023

~ Raises Full Year 2023 Adjusted Net Income Guidance to \$88 Million to \$92 Million ~

LA JOLLA, Calif., May 30, 2023 (GLOBE NEWSWIRE) -- Palomar Holdings, Inc. (NASDAQ: PLMR) ("Palomar" or the "Company") today announced the successful completion of certain reinsurance programs incepting June 1, 2023, and increased the Company's full year 2023 adjusted net income guidance.

Palomar's reinsurance coverage now exhausts at \$2.68 billion for earthquake events including \$17.5 million of additional limit incepting September 1, 2023, \$900 million for Hawaii Hurricane events, and \$100 million for all continental United States hurricane events. The reinsurance program provides ample capacity for the Company's growth in the subject business lines as well as coverage to a level exceeding Palomar's 1:250-year peak zone Probable Maximum Loss ("PML").

Palomar has now purchased approximately \$550 million of reinsurance limit to support the growth of its earthquake franchise in 2023. \$200 million of the new limit was sourced through a new catastrophe bond, the Torrey Pines Re Series 2023-1 notes. The new catastrophe bonds were the fourth Insurance Linked Securities ("ILS") issuance Palomar has sponsored.

Palomar's per occurrence catastrophe event retention is now \$17.5 million, a level that remains well within management's previously stated guideposts, on an after-tax basis, of less than one quarter's earnings and less than 5% of the Company's surplus.

"In what most have deemed the hardest reinsurance market in thirty years, we successfully completed our 6/1 renewal. Importantly, we maintained our retention within our previously stated expectations, bought incremental limit to support our growth, preserved important terms and conditions such as prepaid reinstatements, and successfully completed our fourth catastrophe bond," commented Mac Armstrong, Palomar's Chairman and Chief Executive Officer. "While risk-adjusted pricing increased, the total expense was within our previously stated expectations. The success of this placement along with our strong start to the year allow us to raise our full year 2023 adjusted net income guidance to a range of \$88 million to \$92 million."

Other highlights of the Company's reinsurance program include:

- \$875 million of multi-year ILS capacity providing diversifying collateralized reinsurance capital;
- A reinsurance panel of 78 reinsurers, including multiple new reinsurers, all of which have an "A-" (Excellent) or better financial strength rating from A.M. Best and/or S&P (Standard & Poor) or are fully collateralized;
- Prepaid reinstatements for substantially all layers with a reinstatement provision, thereby limiting the pre-tax net loss to our \$17.5 million retention with modest additional reinsurance premium due.

Palomar's Chief Risk Officer, Jon Knutzen, added, "We successfully navigated the June 1 renewal in an orderly fashion having achieved results in-line with our expectations and are pleased with the support of our reinsurance partners. Our reinsurance placement is a testament to the proactive and deliberate underwriting changes that we have implemented over the last few years designed to reduce our risk profile and deliver more predictable results."

Mr. Armstrong concluded, "Looking forward, we have the reinsurance capacity to sustain our profitable growth trajectory, execute our Palomar 2X strategic objective and build a preeminent specialty insurance company."
