### Palomar Holdings, Inc. Reports Third Quarter 2019 Results

La Jolla, CA, November 4, 2019 – Palomar Holdings, Inc. Adjusted net income<sup>(1)</sup> was \$9.6 million, or \$0.40 per diluted share, for the third quarter of 2019 as compared to \$2.7 million, or \$0.16 per diluted share, for the third quarter of 2018.

#### Third Quarter 2019 Highlights

- · Gross written premiums increased by 65.6% to \$66.2 million compared to \$40.0 million in the third quarter of 2018
- · Net income increased by 376.0% to \$7.5 million compared to \$1.6 million in the third quarter of 2018
- · Adjusted net income<sup>(1)</sup> increased by 253.2% to \$9.6 million compared to \$2.7 million in the third quarter of 2018
- Total loss ratio of 8.8% compared to 33.5% in the third quarter of 2018
- · Combined ratio of 73.4% compared to 100.2% in the third quarter of 2018
- · Adjusted combined ratio<sup>(1)</sup> of 63.6%, compared to 94.0% in the third quarter of 2018
- · Annualized return on equity of 14.6%
- · Annualized adjusted return on equity<sup>(1)</sup> of 18.8%
- (1) See discussion of "Non-GAAP and Key Performance Indicators" below.

"Our third quarter results demonstrate the continued successful execution of Palomar's strategy as we delivered gross written premium growth of 65.6% year-over-year" commented Mac Armstrong, Chief Executive Officer and Founder. "Our results were driven by broad based strength across our portfolio, highlighted by an increase of 67.5% in our earthquake products over the prior year period, 62.1% growth in our non-earthquake products over the prior year period and accelerating rate increases in our commercial lines."

Mr. Armstrong continued, "Growth in our earthquake lines of business was driven in part by a surge in demand for our residential earthquake products following the Ridgecrest earthquake in July, new distribution sources as well as a stronger rate environment in the commercial earthquake market. Our non-earthquake products and notably our newer lines of business continue to see solid market adoption. Compared to the prior year period, our commercial all risk business grew 108.6% and our flood business grew 172.0%. Our inland marine and assumed reinsurance divisions, both launched this year, are already contributing to the overall growth of Palomar. While we are pleased with our third quarter results, we see significant runway for continued growth across all of our product lines."

#### **Underwriting Results**

Gross written premiums increased 65.6% to \$66.2 million compared to \$40.0 million in the third quarter of 2018, while net earned premiums increased 72.5% compared to the prior year's third quarter. Underwriting income<sup>(1)</sup> was \$7.4 million resulting in a combined ratio of 73.4% compared to underwriting loss of \$27,000 and a combined ratio of 100.2% during the same period last year. The third quarter combined ratio includes certain expenses related to the Company's initial public offering ("IPO"), the September secondary offering, tax restructuring, one-time incentive cash bonuses, and stock-based compensation. Excluding those items, the Company's adjusted combined ratio<sup>(1)</sup> was 63.6% in the third quarter compared to 94.0% in the same period in 2018. Losses and loss adjustment expenses for the third quarter were \$2.4 million, including \$0.2 million of favorable prior year development. Additionally, the Company's adjusted net income<sup>(1)</sup> during the third quarter increased by 253.2% to \$9.6 million compared to \$2.7 million in last year's third quarter. Adjusted net income for the third quarter of 2019 excludes certain expenses related to the Company's initial public offering

("IPO"), the September secondary offering, tax restructuring, one-time incentive cash bonuses, stock-based compensation, including the tax impact of those expenses.

#### **Investment Results**

Net investment income increased by 99.9% to \$1.7 million compared to \$0.9 million in the prior year's third quarter. The year over year increase was primarily due to interest income generated by the net proceeds received from the Company's IPO. Funds are generally invested conservatively in high quality securities, including government agency, asset and mortgage-backed securities, municipal and corporate bonds with an average credit quality of "AA." The weighted average duration of the fixed-maturity investment portfolio, including cash equivalents, was 3.72 years at September 30, 2019. Cash and invested assets totaled \$263.2 million at September 30, 2019. During the third quarter, the Company recognized realized and unrealized gains of \$0.4 million related to its investment portfolio as compared to \$1.3 million in last year's third quarter.

#### Tax Rate

The effective tax rate for the three months ended September 30, 2019 was 21.1% compared to 0.2% for the three months ended September 30, 2018. The change in the effective tax rate for the three months ended September 30, 2019 compared to the prior-year period was due to the tax restructuring of the Company prior to the IPO, resulting in all operations of the Company being taxable in the U.S. Prior to the tax restructuring the Company's Bermuda operations were not subject to U.S. tax, thus the overall effective tax rate was lower in 2018.

#### **Stockholders' Equity and Returns**

Stockholders' equity was \$208.5 million at September 30, 2019, compared to \$96.3 million at December 31, 2018. For the three months ended September 30, 2019, the Company's annualized return on equity was 14.6% compared to 6.9% for the same period last year. Over the same period, annualized adjusted return on equity<sup>(1)</sup> increased to 18.8% from 12.0%. The increase in adjusted return on equity was due primarily to an improvement in underwriting income compared to the same period last year.
